

**If you leave the scene prior to arrival of emergency responders see below:**

**Clothing:**

- As soon as you get home, carefully remove your clothing (avoid shaking) and place them and shoes in a plastic bag tied at the top. Place this bag in a 2<sup>nd</sup> plastic bag and secure it also. Keep in an out-of-the-way spot until results of the anthrax tests are known.
- Wash hands after handling clothes or any item that may be contaminated.
- **You are not contagious**, but as a precautionary measure you should avoid contact with household members until after bathing.
- If it was not a hoax, you will be contacted and the bag of clothes will be taken as evidence.

**Personal Bathing**

- Immediately after removing clothes, bathe or shower thoroughly with soap and water.
- Clean water, saline solution, or commercial ophthalmic solutions may be used for rinsing eyes.
